Course Overview

Start your rewarding career in the pathology sector with All Health Training and become a job-ready pathology collector.

This qualification gives graduates the skills and knowledge to work in all areas across pathology collection, for example private sector, hospitals and doctors clinics. This includes: customer service, pathology collection techniques, phlebotomy (blood collection), infection control, work health and safety, medical terminology, visiting clients in their place of residence and electrocardiography (ECG).

All Health Training is committed to providing an inclusive learning environment. Principles of access and equity for all students are applied in all programs. People with disabilities are encouraged to apply.

Course Entry Requirements

This is an open entry program of study with participants needing to read, write and communicate in English to a level to perform the job. For detailed information regarding the course entry requirements for this qualification, please visit our website by scanning the QR code.

Govt. Subsidised Training

This training is delivered with Victorian and Commonwealth Government funding under the Skills First Program and may impact your access to further government subsidised training.

To find out if you are eligible, please contact us on 9894 3900 to discuss your circumstances or visit our website by scanning the QR code.

Tuition Fees

The student tuition fees as published on our website www.allhealthtraining.edu.au are subject to change given circumstances at enrolment.

Practical Placement

Practical placement of 35 hours is a mandatory requirement of this course. All Health Training will organise placement in the industry on our students behalf.

Next Course Commencing

Regular intakes are available throughout the year. Please refer to our website at www.allhealthtraining.edu.au for upcoming course dates.

Units of Competency

14 units of competency are required to successfully complete this qualification. This includes 9 core units and 5 elective units, in addition to 35 hours of practical placement.

UNIT CODE	UNITS OF COMPETENCY
Core Units	
BSBMED301	Interpret and apply medical terminology appropriately
CHCCOM005	Communicate and work in health or community services
HLTINF006	Apply basic principles and practices of infection prevention and control
HLTPAT001	Identify and respond to clinical risks in pathology collection
HLTPAT002	Perform venous blood collection
HLTPAT004	Collect pathology specimens other than blood
HLTWHS001	Participate in workplace health and safety
BSBCUS201	Deliver a service to customers
CHCDIV001	Work with diverse people
Elective units	
HLTCAR001	Perform electrocardiography (ECG)
HLTAAP001	Recognise healthy body systems
CHCCCS027	Visit client residence
HLTAID011	Provide First Aid
HLTPAT006	Receive, prepare and dispatch pathology specimens

Competency is assessed through a combination of practical application and demonstration of skills, research, analysis and completion of competency based workbooks.

Practical Experience and Assessment

Students get the opportunity to undertake practical skill development throughout the course in the All Health Training simulated environment with trainers who are experts in their field and maintain currency in the industry.

Opportunity for Credit Transfers (CT)

If students have already successfully completed unit/s of competency which are included within the qualification AHT offers, credit may be granted. Credit transfers must be approved prior to course commencement.

Opportunity for Recognition of Prior Learning (RPL)

Competencies gained through other formal study or experience may be acknowledged through a recognition process. Contact us for further information.

Pathways

A possible training pathway for a participant completing this qualification could be any specialised area in the health sector or courses similar to the following: Diploma of Nursing, Bachelor of Nursing

“Great customer service from the time of enquiries to the enrolment process. Well trained trainers with the current experience of working in the field whilst training. Supportive and approachable trainers.”

– Beverley S, Student Alumni

*Information published is current at time of printing. July 2025.

Job Prospects:

Pathology collectors work extensively in the private and public pathology collection environments. With further training, you may be able to work in specialised areas such as drug and alcohol testing.
